

Putnam Hospital

Expanding Access and Enhancing Community Connections

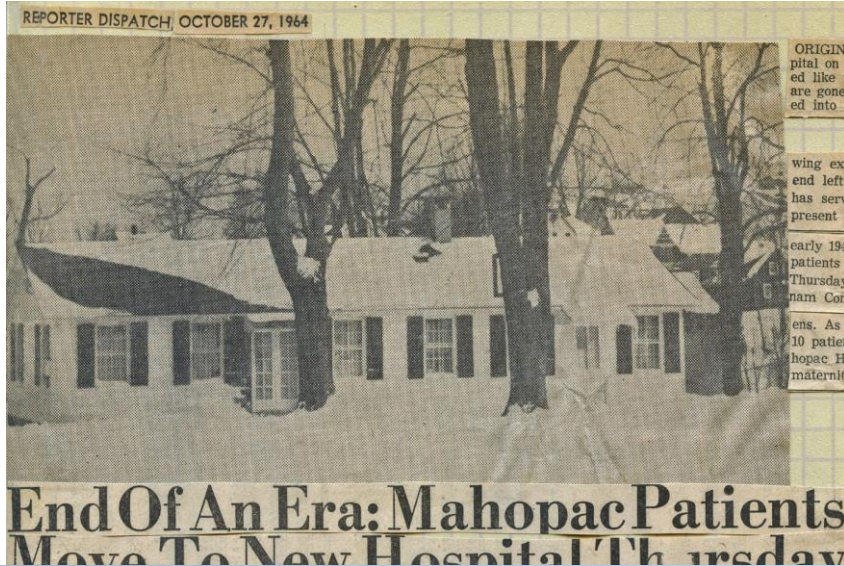

June 6, 2024

Today's Agenda

1. Welcome
2. Transformation Updates
3. Community Connections
4. Questions

Celebrating 60 Years of Patient Care and Service

In 2004, Putnam Hospital Center joins Health Quest, a four-hospital system that included VBMC, NDH and Sharon Hospital.

In 2019, Health Quest and Western Connecticut Health Network formed Nuvance Health, a seven-hospital system that includes Putnam Hospital.

Beginning in late 2022, Putnam Hospital began a transformation and stabilization plan to expand primary and specialty care.

To ensure a vibrant future, these enhancements are meant to modernize the campus and services to meet the needs of the community you call home.
