Item #5h – Approval/Budgetary Transfer (12A082)/Sheriff’s Department/Overtime /Jail Operations was next. On behalf of the members of the Protective Services Committee, Legislator Albano moved the following:

Legislator Birmingham stated that this item was reviewed by both the Protective Services Committee and the Audit & Administration Committee. At the Audit Committee meeting he did move the resolution as is, because it would be awkward to say the least to have two competing resolutions. However, he would like to amend this resolution down to \$250,000. He does not doubt that there is a need for overtime in the Sheriff’s Department, however, if you review the last three months of the year, the amount of

\$333,950 requested is disproportionate to the amount of overtime for the entire year. If need be the Legislature could always revisit this later in the year.

Legislator Birmingham made a motion to amend the amount of \$333,950 down to \$250,000; seconded Legislator LoBue.

Legislator LoBue stated that the amount of \$333,950 would reduce the contingency budget down to only having \$145,000 left for all departments until the end of the year. She believed that the amendment was erring on the side of caution.

By Roll Call Vote: Seven Ayes, Legislators Albano, Birmingham, DiCarlo, Gross, LoBue, Oliverio and Chairwoman Conklin. One Nay, Legislator Othmer. Legislator Tamagna was absent. Motion Carries.

RESOLUTION #210

WHEREAS, the Protective Services Committee and the Audit & Administration Committee have reviewed and approve said budgetary transfer; now therefore be it RESOLVED, that the following budgetary transfer be made:

Item #5m – Approval/Budgetary Amendment (12A083)/Finance/Bond Proceeds/Boiler Replacements/County Office Building/Putnam National Golf Course was next. On behalf of the members of the Audit & Administration Committee, Legislators Birmingham & LoBue, Chairwoman Conklin moved the following:

Legislator Oliverio stated that the County is in the midst of a great deal of bonding. We are in an excess of over \$2 million dollars in bonds this year alone which he believed was very frightening. He stated that the bonding for the boilers was a necessity, however, he believed that there had to be a more efficient way then waiting for things to break and then replacing them.

Legislator Othmer stated that Commissioner Carlin had explained that there were a few bonds that would be ending in the next year or so which would help alleviate these bonds.

Legislator Albano stated that he supported the bond resolutions. There are things that need to be done now and it is cost effective because the bond rate is at an all-time low.

Legislator LoBue stated that she voted “no” against the bonding. She stated that several months ago she brought together the Administration, individuals from the Sheriff’s Department and the Legislative body to discuss money available through energy grants. There are also rebates available now for most of the construction that has already taken place and for construction going forward, especially for the boiler which was converted from oil to gas. She stated that these discussions have been dropped and that is why she is voting “no”. She stated that many of the issues are maintenance related and she believed we needed a ten year maintenance plan for our facilities. She felt that we needed to be very careful on what items we bond.

Legislator DiCarlo stated that there were discussions a number of months ago and he is asking that this maintenance plan be established. Part of what we hear all around this Country is that infrastructures are starting to fail. As a Legislative body, we need to know the Administration’s plan. It is important that the public is also made aware of this plan. He stated the presentation on the County Executive’s proposed 2013 budget will be tomorrow evening. He hoped that these plans will be made available to be addressed by the appropriate Committee Budget meeting.

Legislator Albano agreed with Legislator LoBue that there are grant monies available. He believed that was why the Planning position was discussed earlier in the year. It was to have someone looking for these available grant monies now.

Legislator Oliverio agreed that bonding rates were low, however, that doesn’t negate the fact that over \$2 million dollars is being bonded. We are giving an inheritance to our children and grandchildren of paying this debt off. Regardless of whether or not the interest rate is low, we still have to pay back what was borrowed.

Legislator DiCarlo stated that was why it was so important to have a plan. Commissioner Carlin would be able to show the Legislature the priority items. He could explain the items that are coming off the books and discussions on items needing to move forward. There are always items that going on, while other items may be coming off. He believed that was where the Legislature needed to be included in having that collective decision on what projects we wanted to do from year to year.

Item #5o – Approval/Local Law to Amend Chapter 5 of the Putnam County Code Entitled “Appropriations” was next. On behalf of the members of the Audit & Administration Committee, Legislators Birmingham & LoBue, Chairwoman Conklin moved the following:

Legislator Birmingham stated that various portions of the Legislature approve certain budgetary amendments throughout the year of certain thresholds. Essentially, the only transfers of a significant amount that are not required to, at least, be reviewed by a Committee is the most expensive. The way the Code reads now is that anytime there would be a motion to amend our budget by more than \$25,000 dollars there would be no Committee review of this. He believed that this change is a way to have at least Committee review of these items. The Committee would not be a back stop or a veto of the Full Committee. It just allows the Committee review of the item. He believed it was an oversight when this law was drafted back in the 1990’s. He believed that the important compromise was that in Section 2 we delayed the effect of this law to take place on June 30, 2013. There are some members of the Legislature that have reasonable concerns about whether or not there is a delegation of power. By delaying this change by eight or nine months, it will give them the opportunity to seek counsel from perhaps a State Attorney General or either the Comptroller.

RESOLUTION #217

APPROVAL/LOCAL LAW TO AMEND CHAPTER 5 OF THE PUTNAM COUNTY CODE ENTITLED “APPROPRIATIONS”

Section 2.

This Local Law shall become effective June 30, 2013.

BY POLL VOTE: ALL AYES. LEGISLATOR TAMAGNA WAS ABSENT. MOTION CARRIES.

Item #5p – Approval/Standard Work Day and Reporting Resolution was next. On behalf of the members of the Audit & Administration Committee, Legislators Birmingham & LoBue, Chairwoman Conklin moved the following:

Chairwoman Conklin requested that it be approved with the possibility of the Director of IT, Tom Lannon, whose name does not appear on the list, be included if it is deemed necessary.

Legislator Birmingham stated that he would be abstaining. He stated that Albany is famous for passing laws for others to follow but yet does not pass the same law for them to follow. This is a small silent protest on his behalf.

RESOLUTION #218

APPROVAL/STANDARD WORK DAY AND REPORTING RESOLUTION

WHEREAS, the New York State and Local Employees' Retirement System requires the County to file the Standard Work Days for elected and appointed employees based on time and attendance records or the records of activities maintained and submitted by these officials to the Clerk of the Legislature, and
