Legislator Oliverio stated that he would support the change to the budgetary amendment. He believed this was different than getting a stipend or additional salary. It equates to increasing the overtime line. If the need is there, it needs to be filled. He stated that when the Sheriff's Department has an urgent need and must increase patrols, then overtime is increase. He believed this was the same case with the Coroners' office. Unfortunately there was an increase in deaths in the County and the clerical staff is needed. He believed that the stipend was something that should be discussed during the budget process.

Legislator LoBue concurred with Legislator Oliverio. She believed if the increased stipend was given outside of the budget process it would set a terrible precedent. She stated that after last month's Legislative meeting when the Legislature approved an increase to a position in the Probation Department, we promised everyone that we wouldn't repeat that and give increases. She stated that she was glad to see the stipend increase separated out of the budgetary amendment. It would enable her to vote for the other items in the budgetary.

Legislator Albano believed the increased stipend was justified. However, it was so close to the next budget process.
